

Szymon Grabowski

DEVOPS / CLOUD ENGINEER

Racibórz, Poland | (+48) 510 544 168 | grabowski.szymon@proton.me | remote / hybrid in Silesia

PROFESSIONAL SUMMARY

DevOps / Cloud Engineer with approximately two years of IT operations experience and hands-on practice building non-production AWS platforms under mentorship. I develop infrastructure as code, CI/CD pipelines, container platforms and monitoring with Terraform, Docker, Kubernetes, GitLab CI/CD and AWS. I combine systems administration experience with automation, security and methodical troubleshooting.

CORE SKILLS

Cloud and IaC	AWS: VPC, EC2, ECS/Fargate, EKS, IAM, S3, DynamoDB, ECR, CloudWatch, KMS, SQS; Terraform, Terragrunt, Ansible
Containers	Docker, Kubernetes, Helm, Argo CD, GitOps, nginx
CI/CD	GitLab CI/CD, OIDC, self-hosted GitLab Runner, Jenkins, Kaniko, Git
Observability	Prometheus, Grafana, Alertmanager, CloudWatch, synthetic checks and log analysis
Security	IAM, RBAC, least privilege, Trivy, tfsec, tflint, container and IaC scanning
Systems and networking	Linux, Bash, Windows Server, AD, Entra ID, Exchange, TCP/IP, DNS, DHCP, routing, Security Groups
Data and tooling	PostgreSQL, Jira, Confluence, Barramundi, Palo Alto, technical documentation

PROFESSIONAL EXPERIENCE

CloudForge - DevOps Engineer

03.2026 - present

Formal engagement and preparation for client assignments

- Developing original infrastructure, automation and CI/CD components in non-production environments under senior DevOps mentorship.
- Participating in technical preparation and interviews for CloudForge client assignments.
- Documenting architecture, technical decisions, deployment procedures and recovery scenarios.

CloudForge - DevOps Development Program

09.2025 - 03.2026

Mentored internal engineering projects

- Built isolated AWS environments with Terraform and Terragrunt, covering VPC networking, IAM, container services and observability.
- Created GitLab CI/CD pipelines with IaC validation, security checks, image builds and deployments without static cloud credentials.
- Deployed applications to Kubernetes with Helm and Argo CD; tested health checks, rollbacks, scaling and service-to-service network restrictions.
- Configured Prometheus, Grafana and Alertmanager and automated validation of metrics, alerts and service availability.
- Automated server configuration with Ansible, focusing on idempotency, validation and repeatable deployments.

PREVIOUS EXPERIENCE

Żabka Polska - IT Operations Specialist | Tychy, Poland

09.2024 - 09.2025

- Handled Jira support requests and coordinated second-line escalations with external vendors in Polish and English.
- Administered users, groups and permissions in Active Directory, Entra ID, Exchange and logistics systems.
- Automated application and policy deployments with Barramundi; configured workstations, mobile devices, access points and printers.
- Delivered IT onboarding and Confluence documentation, analysed Palo Alto logs and coordinated repairs and RMA cases.

Extral Sp. z o.o. - IT Support Contractor | Żory, Poland

06.2024 - 09.2024

- Provided on-site and remote support for Windows and Microsoft Office and responded to incidents in a production environment.
- Deployed security updates and encryption software, prepared workstations and maintained IT asset records.

PC net (Komputronik) - IT Service Technician | Trzcianka, Poland

01.2022 - 05.2022

- Diagnosed and repaired computers, printers and UPS devices and configured LAN/WAN infrastructure and client operating systems.
- Performed data recovery and backup procedures.

EDUCATION

WSB Merito University - BEng in Computer Science - Cloud Developer |
Chorzów, Poland

10.2025 - 02.2029

LANGUAGES

Polish - native | English - technical documentation and communication in IT environments
